

2010

The Project Team of
Tecnimont S.p.A

for its Project

**Borouge PE1 Expansion
and Light Gas Splitter Project**

has undergone the assessment process according to the IPMA Model for Project Excellence and has achieved the highest status of

Prize Winner
in Award Category
Project Excellence in Big-Sized Projects

With this performance the project team has proven that with its project management approach it is in the "Top League" in international project management. We wish the project team and its company every success with their future projects.
