

Scholarship program strengthening academic-industrial relations

 *Mumbai (Maharashtra)*

WHAT

- Scholarships provided to economically marginalized enthusiastic learners/ students in order to undertake higher education
- Scholarships given to Bachelor of Technology (B.Tech) & Master of Technology (M.Tech) students paying their tuition fees and food expenses

WHY

- Deserving students from financially weaker communities often face roadblocks in getting enrolled in the premiere institutions like the top IITs. Hence through scholarships/fellowship we encourage students to get enrolled in the main stream of higher education. many bright students to take admissions for B.Tech and M.Tech
- TC MPL employees mentor the fellows during their research study and series of lectures are held in the institute thus creating a link between the academics and industry

PARTNERSHIP

Indian Institute of Technology Bombay

Indian Institute of Technology Bombay, India's premier engineering institute, was established in 1958, with more than 57,500 students graduating from the institute in the last 61 years. It is the most popular institute for Undergraduate & Post Graduate studies. In fact, 47 of the top 50 and 63 of top 100 rankers in JEE 2019 joined IIT Bombay. On QS India ranking, the institute was ranked as number 1 in 2020.

National Institute of Technology Karnataka (NITK) Surathkal

The National Institute of Technology Karnataka (NITK) Surathkal, one of the premier institutions in India, supports research and development activities through its quality technological education. It offers 9 Bachelors, 28 Masters, and Doctoral Degree programmes. NITK is governed by the Board of Governors and is ranked 13th among top engineering institutions in India, as per NIRF ranking in 2020. It has partnered with Tecnimont for providing scholarships to students and a bio-waste recycling pilot plant at its campus.

Scholarship and Fellowships are offered to the aspiring engineering at IITB in the FY 2020-21 & NITK in the FY 2021-22.

SDG's

ABSTRACT

Scholarships are offered to B.Tech students and Fellowships are offered to M.Tech and PHD students. This initiative has been carried out from 2020 in various engineering institutes like Indian Institute of Technology Bombay and National Institute of Technology Karnataka, Surathkal. Selection of these students balances gender neutrality, offers an opportunity to the merit students belonging to economically weaker section.

TCMPL employees mentor the fellow students in their research topics as the topics of their studies are around Energy Transition. TCMPL and its group companies conduct series of lectures in the institutes covering the topics relevant to the industry and part of their academics. Through this TCMPL is trying to bridge the gap by relating the industry opportunities/expectations with the academics.
